

A person is seen from behind, looking out of a car window. The view outside is a sunset over a large body of water, with mountains in the distance. The sun is low on the horizon, creating a bright orange glow that reflects on the water. The car's interior, including the window frame and a side mirror, is visible in the foreground. The overall mood is serene and contemplative.

**CHASING LIGHT.
FINDING STORIES.**

Capturing real journeys as they happen.

WHO WE ARE

Hi, we're Jannik & Hannah.

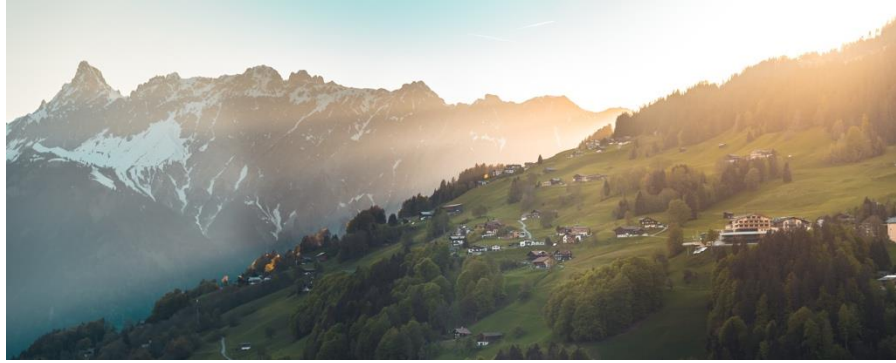

We're not the typical influencer couple — but roadtrip-proven and comfortable with the unexpected. With a shared love for adventure, good stories, great food — and the occasional wrong turn (which usually turns out to be the best one) — we document our journeys as they unfold: real, unfiltered and full of the small moments in between.

Jannik

Usually behind the camera — always chasing the right angle and the perfect light. With years of experience in professional photo and video production and a strong sense for composition and timing, he captures scenes as they happen — natural, instinctive and true to his style.

Hannah

Planning the route, spotting hidden gems and always knowing where to stop next — ideally where there's good coffee and a great view. In front of the camera: authentic, a little clumsy, and always real — creating moments that don't feel staged.

NEXT STOP ICELAND

The Plan

Iceland has been on our bucket list for so many years, and this year is finally the year. We're planning to visit from **August 21st to September 14th** and are flexible within this timeframe.

To not only capture this journey for ourselves, we would love to collaborate with you to create high-quality visual content showcasing the camper experience in Iceland.

In addition to the well-known sights, we want to venture off the beaten path and explore F-roads, remote areas, and less-traveled routes — places where your camper becomes part of a real adventure.

WHAT WE OFFER

High-quality photos

Edited images capturing your camper in beautiful, remote environments — natural, authentic and ready for web & social use.

Cinematic videos

Short-form video content that brings the journey to life — dynamic, atmospheric and story-driven.

Tailored to your brand

Our goal is to work with you to deliver content that is tailored to your brand and aligns with your existing visual identity.

TRUSTED BY

“Jannik delivered exactly the kind of authentic, high-quality visuals we were looking for during our rebranding. His work captures the real campervan experience and fits seamlessly with our new brand identity.”
— OFF Campers

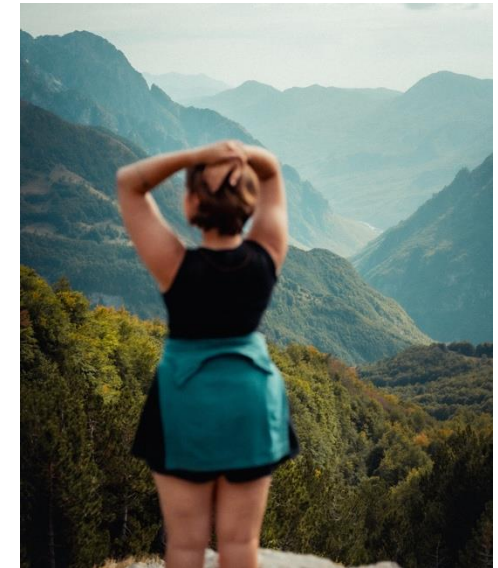

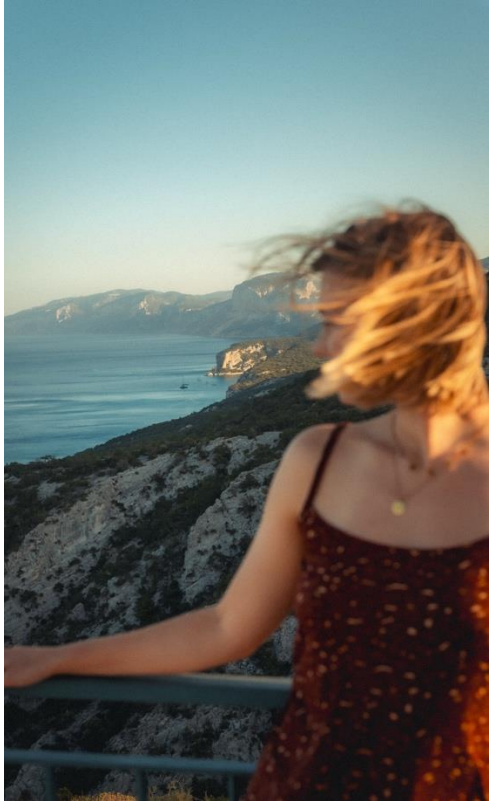

Our Experience

We believe the best collaborations are built on clear expectations and tailored deliverables. This approach has proven to work very well in our previous projects. That’s why we prefer to define the exact scope together — ensuring that both sides get the most value out of the partnership.

Why Go Campers

What stood out to us about Go Campers is your eye-catching social media presence and your focus on giving travelers the freedom to explore Iceland in a flexible and authentic way — exactly the kind of experience we aim to capture through our work.

LET'S HIT THE ROAD TOGETHER

If we sparked your interest, let's discuss how we can create content that brings your campers to life and inspires future travelers to explore Iceland with Go Campers.

Let's connect!
